The 6<sup>th</sup> Annual Berks County Water & Sewer Association Conference promises to once again cover new ground for the Association’s members and municipalities. With an agenda packed from 7:30am until 4:00pm, the conference focuses on the myriad of agencies, entities, and their regulations critical to maintaining healthy water and waste water operations. Touching on where you are in the water cycle from ground water rainfall, until it flows into the Atlantic Ocean. With over 100 attendees at each of the first five conferences, the 6<sup>th</sup> conference promises to be packed with information and opportunities to interact with fellow water and sewer providers and municipal officials. Both integral to the process of safe and clean waters of the Commonwealth.

**Scheduled Topics:**

**9:00 am– 11:00 am. & 1:30 pm -2:30 pm**

**Water Operators – 3 Contact Hours**

Water Distribution System – LB Water, Ben Reichley

**1:30 pm – 3:30 pm**

**Management and Governance:**

PennDOT Connects- Planned and emergency right of way construction coordination. - PennDOT personnel.

**9:00 am – 11:00 am**

**Waste Water Operator – 2 contact Hours**

Application of Bio Solids – DEP and Garvey Resource, Inc.

**LUNCH PANEL: (11:30 pm – 1:00 pm)**

The Lunch topic is The One Water approach for Bio-Solids Applications which effects so many parts of the Berks county environment.

Panel discussion on the best management practices and the opportunities for effective bio solid applications for water, wastewater and farming. Included in the panel will be an industry and state expert, and county practitioners. All of these panelists are experienced in the bio solid application process. You will receive the information necessary to effectively discuss this topic with citizens, staff and governing board members.
